

# Company Profile 2022

Manufacturers of quality lighting since 1920

BELL Lighting  
[www.bellighting.co.uk](http://www.bellighting.co.uk)

# BELL celebrates over 100 years in business 1920-2022!

In May 1920 Edwin Grote, founder, established an incandescent lamp factory in Wimbledon, London manufacturing unique incandescent decorative light sources. The company is still completely owned by Chairman Michael Grote and Managing Directors Trevor & Ralph Grote.

"We are dedicated to the highest quality of customer service delivered with a sense of professionalism, warmth, pride and company spirit. We will endeavour to do everything in our power to serve the customer to the best of our ability."

The National Distribution Centre in West Yorkshire UK, holds over €12,000,000 of stock and is the hub of distribution across Europe.

### Prompt Delivery

Any orders placed before 4pm (UK Time), delivered in 2/3 days. No carriage charge for €500+ orders.

### High Quality Products

All our products are tested in house to make sure they live up to our stringent quality levels.

### Passionate Customer Service

A dedicated team of customer service professionals on hand and ready to help.

### Lighting Design Service

A team of lighting designers ready to help you with your project, free of charge.

### Comprehensive Product Training

Product training available at our HQ, on site or remotely, at a time to suit you.

### Unrivalled Stock Fulfilment

Stocking over 2000 individual product lines, with over 99% fulfilment rate.

## Lighting Design, a dedicated team of specialist engineers ready to help

Our team of professional lighting designers and engineers have over 50 years of experience in the lighting industry. We know the importance of good lighting design and the benefits a lighting engineer will bring to a project. Our lighting design service ensures correct light levels are achieved in compliance with current regulations.

Our specialised knowledge of lighting and lighting control systems provides a smooth hassle free process, delivering beautiful energy saving lighting solutions on time and on budget.

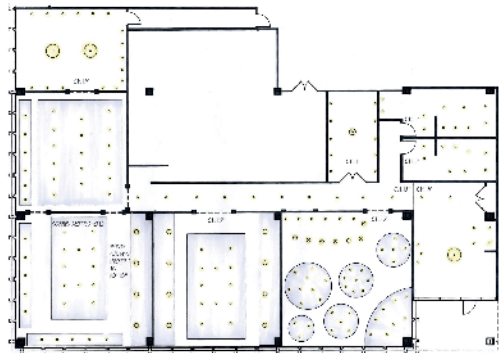

Working within the UK and internationally, the lighting team have established a reputation for designing a broad range of exciting projects of all sizes, from single rooms through to partnerships with multi-disciplined design teams on large infrastructure projects.

We are a responsive and fast moving team who can manage the complete lighting design process from concept through to the tender & supply

For all internal, external & emergency projects contact:

# The BELL Difference - Research, Quality Control & Testing Facilities

BELL Lighting. was established in 1920 and has built a reputation within the industry for manufacturing quality products and providing excellent service to our customers.

The Lighting Research and Development department was established in 2012, this was augmented by the Lighting Laboratory and the Quality Control/Quality Assurance facility in 2013.

Secure Life Testing Area situated on-site next to the National Distribution Centre, batch tests all manufactured items to ensure continuity to life standards.

All products manufactured by BELL Lighting undergo a stringent set of quality control procedures, carried out in accordance with the latest standards.

Be assured that when you choose BELL lamps or fittings you are getting the most energy efficient units available today, saving you money, energy and reducing your carbon footprint.

# Case Studies
